

# Palio de lo Daino

DALLO 20 ALLO 23 AGOSTO 2015

presents the first edition of the Project

## ANDAR A BOTTEGA

The objective that the Organization wants to achieve is to rediscover the ancient professions thanks to the pleasure to work by hand in a unique contest such as Palio del Daino's.

You can live this experience as a protagonist creating, dirtying yourself and having fun during a four-days manifestation, well-renowned both at national and international level.

Inside "the Shop" you will be able to relive the same old sensations of past times, wearing a medieval costume given at your disposal by the Organization itself. The precious advice of your "Master", the rediscovery of old materials sharing same experiences with other students while living together social moments and walking along the streets of the medieval village .. these are only some of the different ways you can discover unique and special atmospheres.
