“ Knowledge was Built,  
in the Renaissance,  
the future  
is in the Cards ”

Ladies and gentlemen, residents and guests, when you enter the gate of the castle of Mondaino, you travel back in time, to an age of feasting...

Celebrations to commemorate the day on which, on a small hill in the Mondaino area, Count Federico da Montefeltro made peace with Sigismondo Malatesta, lord of Rimini and great celebrations were held to mark the occasion.

For four consecutive days, the quarters of the town – Borgo, Castello, Contado and Montebello - will challenge one another in games and frequent the taverns to satisfy their great appetite and thirst.

In the streets will be stalls and artisan workshops of various kinds, musicians, singers, jugglers, stilt-walkers and other performances to provide plenty of joy and fine food to feed the soul, the body and the good side of life.
